

AIRPORT DEVELOPMENT

Liberty County Airport

MidCoast Regional Airport at Wright Army Airfield (LHW) is a recent addition to the exclusive list of joint-use airfields in the United States. The airport is a cooperative effort between the City of Hinesville, the Liberty County Board of Commissioners, the Liberty County Development Authority, and the United States Army, acting under a Joint Management Board (JMB). To aid project design, HSA performed a geotechnical exploration and evaluation to provide recommendations for overall site preparation and foundation design for the Terminal Building. During construction, HSA performed quality control testing of soils, concrete, and asphalt for the general aviation apron, as well as during the installation of asphalt overlays of the runways and taxiways.

LOCATION

Hinesville, Georgia

SERVICES RENDERED

Geotechnical Engineering, Construction
Materials Testing
