

COMMERCIAL DEVELOPMENT

MetWest

In 2009, the first of three MetWest, Inc. buildings opened. HSA provided the geotechnical, construction materials testing and inspection, structural steel inspections, and threshold inspections for the 250,000 square-foot Class A Office Building. MetWest, Inc. plans to build two other buildings which will include restaurants, retail space and living quarters. All three-office MetWest, Inc. buildings will seek certification under the U.S. Green Building Council's Leadership in Energy and Environmental Design program.
