ENGINEERS & SCIENTISTS

HSA Atlanta prosperity through growth

HSA Engineers & Scientists is pleased to announce the expansion of our Insurance Services Division to the city of Atlanta, Georgia. Our new branch office will provide a variety of insurance support services including: catastrophe response, fire investigations, indoor air quality evaluations, structural forensics, subsidence investigations, and vehicular accident reconstruction.

HSA's success in the insurance industry is attributed to consistently delivering high quality and responsive service. HSA's wide range of investigative and engineering capabilities for the insurance industry include: assisting adjustors in the evaluation of claims, forensic engineering, expert testimony, evaluation and allocation of remediation costs, oversight of remediation activities, and peer review of reports. HSA has earned considerable respect from our peers and clients alike; our reputation has been built through professional and detailed analysis, quality reporting, and rapid responsiveness to our industry clients and their insured's.
