
HSA Awarded Contract with Florida Department of Environmental Protection *Petroleum Contamination Site Cleanup Services*

October 2008: HSA has been awarded a contract by the Florida Department of Environmental Protection (FDEP) to provide site assessment and remedial services under the petroleum program. The contract will begin upon execution and have a period for task assignments of 5 years. During the past 5 fiscal years, the FDEP has spent \$74.7 million under state cleanup contracts. Through the state cleanup contracts, each contractor received funding amounts ranging from \$1.3 million to \$29 million.

Under the contract, HSA will support assessment and remedial tasks in fulfillment of FDEP's petroleum cleanup program responsibilities including: tank closures, site assessment, remedial design, remediation, and monitoring. While HSA has provided similar services to the FDEP through our Hazardous Waste Contract under the Drycleaning Program, this contract will allow HSA to enhance our resume in the field of petroleum assessment and remediation services.

HSA is a driven, multi-faceted science and engineering firm that provides aggressive and effective consulting services for our clients. With eight offices located throughout the southeastern United States, HSA has developed a reputation for delivering technically sound solutions on time and within budget. HSA's array of investigative and design services include: geotechnical, environmental, engineering design, water resource management, materials testing, drilling, geophysics, construction & demolition, and insurance support services.

HSA has been honored with a number of awards acknowledging their dedication and achievements in the engineering profession, and commitment to their employees and clients. In 2007, HSA was selected to Inc. magazine's listing of Top 5000 Fastest Growing Firms in America. HSA was also honored to receive the Zweig White Hot Firm listing which honors the 200 Fastest Growing Architectural, Engineering, Planning (A/E/P) & Environmental Consulting Firms in the country. In 2008, HSA was acknowledged by CE News as one of the Best Environmental Firms to Work For.
