

PRESS RELEASE

HSA Engineers & Scientists recognized by Florida Trend

Best Firms to Work For in Florida

July 2009: HSA Engineers & Scientists, a leader in engineering and insurance-related consulting services, has been named a top firm to work for by Florida Trend Magazine -- a business, finance and public policy publication. "Our goal is to recognize companies that strive to build even better workplaces for their employees, thereby strengthening their own as well as Florida's competitive advantage in the national and global arenas," says Florida Trend Publisher Bruce Faulmann.

Companies underwent a survey process evaluating each company's workplace policies, practices, philosophies, systems, demographics, and employee satisfaction. "We've highlighted the practices of companies that have established themselves as great places to work — including everything from how they train their workers to how they communicate; and the kind of pay and benefits they provide. This is a great opportunity for companies in Florida to learn from each other as they go about improving their own effectiveness," says Mark Howard, Executive Editor.

With offices located throughout the southeastern United States employing over 250 professionals, HSA's array of management and design services include: geotechnical engineering, environmental engineering, engineering design, water resource management, materials testing, drilling, geophysics, construction & demolition, and a variety of litigation and insurance support services. Employees rated HSA highly for its commitment to its employees, team environment, quality of its work, and confidence in its leadership team.

HSA has been honored with a number of awards acknowledging their dedication and achievements in the engineering profession, and commitment to their employees and clients. In 2007, HSA was selected to Inc. magazine's listing of Top 5000 Fastest Growing Firms in America and honored to receive the Zweig White Hot Firm listing which honors the 200 Fastest Growing Architectural, Engineering, Planning (A/E/P) & Environmental Consulting Firms. In 2008, HSA was honored by CE News as one of the Best Environmental Firms to Work For in the country.
