

Nicholas Albergo appointed to the Blacksmith Institute Technical Advisory Board

November 2010:

Nicholas Albergo, P.E., DEE, President of HSA Engineers & Scientists, has been appointed to the Blacksmith Institute Technical Advisory Board, a group of internationally renowned experts who provide guidance to Blacksmith's strategy and operations intended to address some of the world's worst polluted places. Based in New York, Blacksmith Institute is an international not-for-profit organization and global leader that works cooperatively in partnerships that include governments, the international community, NGOs and local agencies to identify sites where human health, especially that of children, is most at risk, and solve life-threatening situations in some of the world's worst polluted places.

ABOUT HSA

With offices located throughout the southeastern United States employing over 270 professionals, HSA's array of management and design services include: geotechnical engineering, environmental engineering, engineering design, water resource management, materials testing, drilling, geophysics, construction & demolition, and a variety of litigation and insurance support services. HSA has been honored with a number of awards acknowledging their dedication and achievements in the engineering profession, and commitment to their employees and clients. Previous awards have included: the Zweig White Hot Firm listing which honors the 200 Fastest Growing Architectural, Engineering, Planning (A/E/P) & Environmental Consulting Firms and recognition as one of the Best Environmental Firms to Work For in the country by CE News.
